FUSION 360 EXERCISES

200 PRACTICE DRAWINGS

SACHIDANAND JHA

Dear Reader,

Thank you for choosing **AUTODESK FUSION 360 EXERCISES** book. This book is part of a family of premium-quality CADin360 books, all of which are written by Outstanding author who combine practical experience with a gift for teaching.

CADin360 was founded in 2016. More than 3 years later, we're still committed to producing consistently exceptional books. With each of our titles, we're working hard to set a new standard for the industry. From the paper we print on, to the authors we work with, our goal is to bring you the best books available.

I hope you see all that reflected in these pages. I'd be very interested to hear your comments and get your feedback on how we're doing. Feel free to let me know what you think about this or any other CADin360 book by sending me an email at contactus@cadin360.com.

If you think you've found a technical error in this book, please visit <https://cadin360.com/contact-us/>.
Customer feedback is critical to our efforts at CADin360.

Best regards,

Sachidanand Jha

Preface

AUTODESK FUSION 360 EXERCISES

- ❖ This book contain 200 CAD practice exercises and drawings.
- ❖ This book does not provide step by step tutorial to design 3D models.
- ❖ S.I Units is used.
- ❖ Predominantly used Third Angle Projection.
- ❖ This book is for **AUTODESK FUSION 360** and Other Feature-Based Modeling Software such as Autodesk Inventor, Catia, SolidWorks, NX, Solid Edge, AutoCAD, Creo etc.
- ❖ It is intended to provide Drafters, Designers and Engineers with enough CAD exercises for practice on **FUSION 360** .
- ❖ It includes almost all types of exercises that are necessary to provide, clear, concise and systematic information required on industrial machine part drawings.
- ❖ Third Angle Projection is intentionally used to familiarize Drafters, Designers and Engineers in Third Angle Projection to meet the expectation of world wide Engineering drawing print.
- ❖ Clear and well drafted drawing help easy understanding of the design.
- ❖ This book is for Beginner, Intermediate and Advance CAD users.
- ❖ These exercises are from Basics to Advance level.
- ❖ Each exercises can be assigned and designed separately.
- ❖ No Exercise is a prerequisite for another. All dimensions are in mm.
- ❖ Note: Assume any missing dimensions.

EXERCISE-81

A 3D perspective view of a green L-shaped bracket. The bracket has a long horizontal arm and a shorter vertical arm. A blue channel is cut into the top surface of the horizontal arm. There are eight yellow circular fasteners: four along the top edge of the horizontal arm and four along the vertical arm. A circular hole is located at the bottom of the vertical arm.

EXERCISE-160

A 3D model of a mechanical assembly. It consists of a blue rectangular base plate with four yellow circular mounting holes. A red square flange with four yellow circular mounting holes is mounted on top of the base plate. A green cylindrical component is mounted on top of the red flange, centered over one of the mounting holes. The green cylinder has a yellow circular opening in its center.
